"Concrete, steel and lumber can make the buildings, but People make the community. Together, we can realize a Way-of-Life unprecedented in America."

— DEL E. WEBB

Thirty-five hundred kindred spirits are now assembled in the buildings of concrete, steel and lumber comprising beautiful Sun City, Arizona. We have come from the four-corners of the United States and represent, in our past activities, nearly every profession, occupation, skill and endeavor that has gone into making the United States and America the greatest nation on earth.

We are now the pioneers of an idealistic concept of a "new way of life" for senior citizens, banding together for active retirement and association with neighbors of like interests and social desires.

Your Civic Association hopes that the publishing of this Directory and setting forth, as it does, the names of your neighbors, from whence they came, what they did, where they now live, and their special Sun City activities interests, may be the means of assisting in the bringing together of fellow-cohorts in new and lasting love and friendships.

MISCELLANEOUS

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears slightly aged or off-white. There is no handwriting or other markings on the page.

HOW IT WORKS

Your City Directory has been prepared to give you as much information about your neighbors as would seem to be of general interest: the surname in all CAPITALS, followed by the man's first name and initial and his activities (designated by numeral and letter code), then the wife's name and her activities, followed by their Sun City home address and telephone number, followed by their former city of residence and the man's (and wife's) past business interests.

By using your Directory you will find neighbors with like general interests, people from your old home town or general area, and those who pursued the same profession or business life.

Get together, "shoot-the-breeze," become active in civic affairs and lend your support to making Sun City the friendliest, most desirable community in which to live in all America.

NOTE: There are some duplication of names with different addresses, due to the persons renting in New Life No. 1 or Sun City No. 1 pending the completion of their homes in the new section of Sun City.

IMPORTANT NOTICE

The Telephone Company is in the process of changing over all telephone number listings from a combination of letters and figures to ALL FIGURES, which they refer to as All-Number Calling. This procedure makes no change in the dialing process since the prefix in numbers are the same dial positions as the former letters. Example: YE 3 becomes (in all numbers) 933. Therefore, if your former telephone listing was YE 3-1234, under the new designation it will be listed as 933-1234, which requires the same dial pulls as did the former method.

You will find the telephone listings in this directory in accordance with the All-Number method, thus providing against future confusion as the official change-over is in progress.
